ABOUT ME

As a student with a passion for web development, I am seeking an entry-level position in a tech company where I can utilize my skills and knowledge to develop innovative and user-friendly web applications.

PROJECTS

WhatsApp Web Clone

React.js, Material-Ui, Node.js, Express.js, MongoDB, Socket.IO

The WhatsApp Web Clone is a project that seeks to recreate the functionality and user experience of the original WhatsApp Web application. This clone aims to provide users with the ability to access and use WhatsApp directly from their web browsers, just like the original platform

Loyal Friend (Animal Welfare site)

Javascript, HTML, CSS

The website front-end allows the user to adopt a pet, volunteer towards the pet, purchase products that are related to pets, and donate the desired amount to the organization.

Art (Online Art gallery)

Javascript, HTML, CSS

Art is a front-end website that allows artists and art enthusiasts to showcase, view, or purchase art pieces

[GitHub link - https://github.com/gourisaini/Art-Gallery](https://github.com/gourisaini/Art-Gallery)

Skin Studio (Cosmetic site)

Javascript, HTML, CSS

Lorem ipsum is a front-end website where users can view various cosmetic products and their descriptions. The project provides the user with a flexible & attractive UI & shows them a list of products & carries out all the shopping activities online.

Gouri Saini (Portfolio site)

React.js

Gouri Saini website is clean and concise. This web developer portfolio consists of four sections – the homepage with his bio, a dedicated project page, and a contact page and a resume page having a simple design, it is intuitive and easy to use.

Career Crafts

Node.js, MongoDB, HTML, CSS, Bootstrap, JavaScript

Developed a web application that will auto-generate a nice and properly formatted Resume from the information filled up in a form. The resume is downloadable in PDF format. Also, the user can log in again to access the previous resume that he had made.
